The Planning Board went over a draft ordinance submitted by Pat Philbrook, Health Official. The Planning Board would like to meet with Pat Philbrook. There is a lot in this draft ordinance that the Planning Board feels that is already covered in the current ordinances for the Town of Pittston. Marlene will check with MMA to see if there is an ordinance covering public utility companies. The Planning Board felt this ordinance is too general and too vague. (*Natalie will call Pat and ask that she meet with the Planning Board about this draft ordinance*).

Because the Gilbert Group withdrew their Planning Board application for a gun shop, does the check that was submitted with the application get returned? The Planning Board agreed that because there was no expenses for this permit that the check should be returned.

The Planning Board discussed the S. Beech Hill Rd. and the possibility of re-connecting this road with the Beech Hill Rd. The Planning Board felt that because of the pipe line that runs across the Beech Hill Rd. this is a safety concern.

✚ Laura made a motion to adjourn the Planning Board meeting
