

Town of Pittston RiverWalk Committee  
Minutes September 3rd, 2024  
6:00 pm at the Town Office

Citizens present; Jean Ambrose, Wayne & Cheryl Peaslee, Tete & Gail Malcolm

The meeting was called to order at 6:00pm by Jean Ambrose.

Minutes for the August 5<sup>th</sup> meeting was approved as written; motion by Wayne & 2<sup>nd</sup> by Tete.

Jean had an update from John Cressy who is working with DEP on the testing and clean up on the RiverWalk. He should have a draft report done with in the week and the Analytical results do not show any issues with the property. Great news for us.

We will be starting to remove more scrap metal in September, now that the testing is complete.

Wayne and Todd will be going down soon to bush hog the place for Sam Snow Construction to start install of a parking lot to get cars away from parking on the Old Cedar Grove Road. Cheryl has been in touch with Dillion Coutts to install post for our RiverWalk sign. When the parking lot is done the sign will go up. We now have a 911 address, and the number is 199 Old Cedar Grove Road. That will also be hung when the sign goes up.

Cheryl presented draft copies of the proposed survey and a cover letter to be mailed out and presented at town functions soon. All feedback is welcome. I am also getting the newsletter ready and would like some new pictures.

We discussed how to use the approved tax dollars (a sum of \$1500.00 was approved at the annual Town meeting); one idea was to put it towards the down payment for the landscape architect. We need to get a group of people to select one from the list that Doug Beck sent us.

We adjourned the meeting at 6:35pm.

Respectfully submitted by

Cheryl Peaslee
