

Town of Pittston
Town Office Power Outage Warming Policy

Notice to Residents:

The Pittston Town Office has a generator that supplies power to the entire building during a power outage. As such, the Office can serve residents as a Warming Center and for the charging of phones and other small electronics. For residents without power, the Town Office will be open during its normal hours for warming and charging. For extended, town-wide power outages, the Select Board may open the Office for some daytime hours on weekends.

Please understand if the travel conditions are unsafe, the Select Board may have closed the Office for the safety of employees. It is also common that phone lines may be down in addition to power lines so the facility might be on generator power without working phones. Town Office: 38 Whitefield Road, 207-582-4438.

Stay safe!

Approved by the Pittston Select Board November 4, 2020
